

OPTIMAL BUSINESS PRODUCTIVITY

Maximize Efficiency Through Automation and Integration

At Analytix Solutions, we can help you to plan, implement and upgrade your existing accounting system to ensure optimal business productivity. Recognizing that every business runs differently, Analytix will take the time to help you determine which solution best aligns with your unique business requirements. We will then integrate that solution into your accounting system so you can gain efficiencies in your business processes and accounting systems. Automating these key processes will help you better manage your accounting systems.

Analytix provides a team of accounting and technology experts with extensive experience in integrating third party applications with various accounting systems. Our technology experts can manage all phases of systems implementations and integrations with applications such as QuickBooks, Great Plains, Peachtree, Intaact, etc. We can even provide post implementation training sessions and help desk support, depending upon your company's needs.

Processes We Have Successfully Automated:

- ▶ Importing 1000 vendor invoices per month in accounting system
- ▶ Recording insurance billing , commission and payable in a single step – 1000s of transactions per month
- ▶ Importing daily receipts and sales to accounting system for more than 50 stores
- ▶ Integrating ADP payroll with accounting system – by department
- ▶ Importing e-commerce transactions with product details
- ▶ Generating dashboard and business intelligence reports by integrating with three different databases

Benefits

Eliminate redundancies in manual data entry

Reduce risks of errors and duplicate entries

Ensure data integrity through automation

Timely financial reports

Improved productivity

- ▶ 40 Years Combined Experience in Accounting and Technology

Contact us today for a FREE analysis of your accounting system, and learn why we are the company that CPA's recommend!

“One of Analytix Solutions' greatest strengths is that they look at every single process, and they automate it as much as possible. This greatly reduces the risk of inaccuracies, and it makes us more efficient as a business. Other companies we tried using just threw more manpower at a situation, which ultimately increased our costs. Analytix Solutions is now our entire accounting department, and they have added great economic value to our businesses.”
