

INTEGRATING QUICKBOOKS AND OTHER APPLICATIONS

Data Integration Solutions By Analytix

QuickBooks is the off-the-shelf software solution of choice for small and mid-size companies that use accounting software to manage financial operations. Most of these companies also use other applications like Excel, Point of Sale, time & billing, payroll and inventory management, but most of these applications don't "talk to" QuickBooks. This results in data duplication, wasted time and preventable errors that can cost companies thousands of dollars.

Analytix specializes in providing QuickBooks integration services to small to mid-size companies. We can assist you in evaluating your integration choices, integrating existing applications and creating new integration solutions. By automating mundane financial management tasks, we can help your company operate more efficiently, eliminating wastage of time and resources while streamlining your financial data processing.

How QuickBooks Integration Can Help

- ▶ Decrease data entry duplicates
- ▶ Integrate financial processes across departments
- ▶ Save thousands of dollars in errors and staff time
- ▶ Transfer data to and from Microsoft Excel, payroll applications and other programs
- ▶ Provide a 30% (average) increase in productivity by integrating multiple applications

Why Analytix

- ▶ Authorized QuickBooks Affiliate
- ▶ Certified QuickBooks ProAdvisor
- ▶ Expert accounting and bookkeeping service provider
- ▶ A staff of qualified QuickBooks experts to serve you
- ▶ Affordable, reliable, accurate and proven
