

CREDIT AND DEBIT CARD PROCESSING

Easy Payment Solutions by Analytix

With credit and debit cards quickly becoming the preferred method of payment for products and services, companies not offering this convenience may be losing revenue.

Analytix Payment Solutions enable credit and debit card processing directly through QuickBooks. As soon as a new transaction occurs, it is automatically entered into QuickBooks. So you save hours of time and effort traditionally spent on separate QuickBooks data entry and reconciliation.

Set-up is handled online, with organizations able to process payments from their PC right away. Analytix also provides expert troubleshooting support.

Here's How It Works:

- ▶ Set-up and launch your account online in just a few minutes
- ▶ Enter payments on your QuickBooks 'Receive Payments' screen
- ▶ Change your customer's credit card by clicking 'Process Card when Saving'
- ▶ Enter your customer's new card information
- ▶ View or print a transaction receipt

Is the Analytix Payment Solution right for you? If you need to process sales on the same computer that runs QuickBooks, invoice and track customers individually, or have a phone or mail-based order facility, you simply cannot afford to struggle with alternative manual processes. Analytix will back your business with experienced professionals able to walk you through the process step-by-step.

Call today to receive a **FREE** analysis of your accounting system, and see why we are the company that CPA's recommend!

Benefits

Save time with updated and automatic card transactions in QuickBooks

Save money with no cancellation or hidden fees

Eliminate data entry errors, increase accuracy and get a lower card-swipe rate with a card reader

Grow revenues by giving customers what they want — simple payment options

"One of Analytix Solutions' greatest strengths is that they look at every single process, and they automate it as much as possible. This greatly reduces the risk of inaccuracies, and it makes us more efficient as a business."

Don Crow, CPA, CEO
