

ACCOUNTING & BOOKKEEPING SOLUTIONS

CLIENT SPEAK

Core Services

- Bookkeeping
- Accounting
- Accounting Systems
- Payroll Services
- Part-time CFO

“Analytix Solutions offered us extremely bright, extremely competent people. It was very apparent during our initial meeting that they were more technologically sophisticated than the other companies under consideration. We were initially concerned about hiring a company that was based several hundred miles away from our facility, but that fear was eliminated as soon as we met the team. They were by far our best option... Every time we needed them, they were there. Sometimes when you hire someone or a company part-time, it can be difficult to get their attention. This has not been our experience with Analytix Solutions. The team at Analytix is always very responsive to our needs. When things are urgent, they are there. When things are time sensitive, they deliver.”

– Gary Youm, CFO, Owner, Sono Field House

“Hiring Analytix has been a phenomenal decision, and has reaped great rewards in less than a year. We have accurate accounting, meaningful financial reports and real-time analysis prepared by professionals. We can now spend our time analyzing the financial reports and implementing new strategies to grow our business. Every small business should consider outsourcing their accounting. Analytix has proven they can do the job thoroughly, efficiently and accurately. They are a true partner in our business.”

– Don Crowe, CPA, CEO, Arena Sports, Inc.

“At the beginning of our relationship, our own QuickBooks system crashed, and we lost all the financial information for one of our properties. Analytix Solutions was able to rebuild all the information on their own server for us with 24/7 access in approximately three weeks, which was a significant amount of work within a short period of time. They have the bandwidth to resolve important issues quickly and then to scale back resources to what is required on an ongoing basis... They have been instrumental in creating transferrable systems for our company instead of a line of people who can leave with knowledge of the business.”

– Gautam Sharma, President, Global Vision Hotels

“The breadth and depth of services Analytix Solutions offers is pretty amazing. What’s even more amazing is how well they perform them. They allow me to do what I do best – which is sales and marketing, not programming or accounting... If Analytix Solutions stopped doing business today, we would be out of business. We are that reliant upon their services.”

– Scott Barrie, Managing Director, Investcap Advisors

ACCOUNTING & BOOKKEEPING SOLUTIONS

CLIENT SPEAK

Key Benefits

- Accurate & Timely Information
- Affordable Rates
- Professional Staff
- 24/7 Online Access

“We had six different facilities which acted like six different business lines. Every business reported financial operations independently. We just couldn't integrate the business. Analytix Solutions helped us. It was impressive how quickly they came up to speed. They asked the right questions, really got to know our business and were providing high quality, solid information to us on a timely basis.”

– Tom McLaughlin, Owner, Teamworks

“Analytix Solutions' attention to detail and the quality of their work is amazing. They have been terrific. We view them not only as a partner but as an extension of our employee team. They have provided us with solid accounting assistance, but they have also really gotten to know our business. If we had to bring our financial operations in-house and hire a full-time bookkeeper and full-time controller, it would cost us three times what we are paying now. And I doubt we would receive the same quality service and added value. We have become extremely dependent upon them.”

– Peter Falkson, CEO, National Sleep Therapy

“We were very doubtful that this integration could be performed, not because we doubted the abilities of Analytix Solutions, but because it was too good to be true. Analytix Solutions made the billing process seamless, and they took care of everything. They have provided us with great 'peace of mind'. Our billing process is now very efficient and our turnaround time is 24-48 hours. Now we can see where we are financially at any time. Partnering with Analytix Solutions was one of the best decisions we've made as a firm.”

– Nancy Flynn, Flynn & Wirkus

“We were 4% more profitable than we would have been if we had managed these functions in-house, and that's assuming we would have performed those functions as well as Analytix Solutions.”

– Gary Brach, CEO, AgencyPort

“Analytix has proven ideal for my legal practice. The system is not only timely but their paperless document management system provides me instant access to originals of any financial transaction within seconds. Their quality of work is exceptional. Their detail orientation has been particularly helpful in the areas of credit card and escrow reconciliation.”

– Principal Attorney, Robert Plotkin, P.C.
