NON-PROFIT

Accurate and Affordable Solutions for Non-Profits by Analytix

As a non-profit, some of your biggest challenges are fundraising, increasing donations from current donors and enhancing donor loyalty and retention. It is important that you have an accurate picture of your financials and effective information for measuring and evaluating programs. Establishing a history of fiscal responsibility will make you more attractive to future funders.

At Analytix Solutions, we provide non-profits with affordable, customized and scalable financial solutions that will help you save significant time and financial resources by allowing you to concentrate on maximizing the core functions of your organization. Our combined expertise in accounting principles and applications allow us to efficiently manage this aspect of your organization.

We are there to assist you better manage periods of peak activity and then can scale back services when they are no longer required. Unlike traditional financial reports, our documents are incredibly easy to understand and our web-based technology is compatible with QuickBooks and other popular accounting applications. Robust reporting through our dashboard allows you to track revenues, cash flow, key performance indicators and operation management reports specific to your organization. By providing you with the appropriate resources and tools, we can help increase the likelihood of the success of your non-profit and bottom line profitability.

Contact us today and learn why we are the company that CPAs recommend.

Benefits

More time to focus on fundraising

Significant cost savings

Reduced overhead

Increased efficiency

Timely and accurate financial reporting to support grant writing

Scalable IT solutions with minimal investment

“During a reorganization, one area in which our non-profit needed professional attention was accounting processes and procedures. This expertise was too expensive to bring in house, so we hired Analytix Solutions. They handle all of our financial operations — bookkeeping, accounting, and reporting. Working with Analytix allowed us access to amazing technology, which has really helped us to grow our own activities.”
