

Reliable Financial Solutions for Indoor Sporting Facilities

Indoor sporting facility operators are challenged daily with financial concerns which are unique to that industry. The Analytix Solutions team of professionals has extensive experience providing indoor sporting facilities with financial solutions specific to their needs. We provide a full range of critical accounting services, including bookkeeping, controller level services, and CFO level services. Our accounting systems and integration services include frequently used programs such as Sports Application Management, QuickBooks, and Sports IT integration and reporting solutions. In addition, we also provide secondary financial and business support solutions customized for sporting facility owners that include Electronic Document Management, Systems Integration, IT Support and Web Marketing.

Accounting and Bookkeeping Solutions

For most small businesses, periods of peak activity often mean total focus on client deliverables. At such times, resources can be stretched and financial functions including accounting and bookkeeping may suffer. For sporting facilities, this could mean that key financial reports and measurements go unchecked during critical, seasonal periods. At Analytix, we provide a team of trained professionals available to you whenever you need assistance in keeping your financial records on track. Depending on your facility's needs, we can assist with specific accounting and bookkeeping functions, provide you with a part-time CFO, or even function as your in-house finance and accounting department. In addition, our solutions are scalable so that you can curtail services when they are not required.

QuickBooks Integration with Sports Application Management (SAM)

QuickBooks integration imports your daily receipts and revenue as per categories determined by you. The integration carried out by Analytix is accurate, fast, and error-free, as it is fully automated thereby eliminating human error associated with manual data entry. Integrating QuickBooks with SAM allows facilities to reconcile bank and credit card

INDOOR SPORTING FACILITIES

Benefits

Accuracy of critical information that is vital to operation

Increased data integrity resulting from efficient automation

Customized report generation

Cost effective, scalable bookkeeping and accounting solutions

Real time access to financial reports — anywhere, anytime

Ability to foresee customer trends

“Being able to see changes in our customer trends rapidly is of the greatest importance to us... The fact that they are working with similar companies allows us to benchmark ourselves against other facilities and evaluate how we are performing against industry standards and norms.”

Steve Werner, General Manager
DREAMSPORTS CENTER

About Analytix Solutions

Businesses who are positioned for growth turn to Analytix Solutions for scalable, single source, business solutions. We provide small to mid-sized businesses with a full range of accounting services, ranging from bookkeeping to CFO services, in addition to accounting systems automation and integration.

deposits, reconcile accounts receivable, process refund checks, and preview data before importing. It also generates a backup copy which can be saved for subsequent review.

Sports IX

The Sports IX application was developed by Analytix professionals to assist facility owners run their business more efficiently. It generates reports based on data provided by Sports IT, a management tool that automates critical sporting facility functions such as customer management and online registration. These reports provide significant data intelligence for areas such as trend analysis, deferred revenue reports, league sales reports, cash vs. accrual, and retention.

In addition to ensuring greater accuracy, Sports IX reports are customized to facility owners' needs and are designed for seamless integration with data generated by Sports IT. These reports provide facility owners with information which is critical to their operations.

Reporting Dashboard

At Analytix, we believe that timely access to your financial data is vital which is why we provide our clients with 24/7 access to their data through a secure web portal. Our clients can access data and upload information through this portal at their convenience. The portal allows access to operational reports, including key performance indicators such as revenue growth and revenue by program.
