

The Company that CPAs Recommend

Stand out from the Competition

Millions of consumers are looking for products and services online. Can you afford to ignore these customers?

Our comprehensive web marketing services help businesses promote their brand effectively. So the web becomes your primary marketing tool. We can also help you increase your online visibility with web marketing services including search engine optimization (SEO), pay per click (PPC) campaigns, email marketing campaigns, electronic marketing collateral and online social media promotions. Discover a truly powerful medium for generating targeted leads and increasing brand recall.

Analytix's Web Marketing Services Include:

- Web Site Development: Our team of professionals develop high quality web sites to attract and retain visitors.
- **SEO Services:** We implement ethical optimization techniques to ensure your website is featured within the top search results so that you attract targeted visitors. Our SEO services are result-oriented, measurable and cost-effective.
- PPC Campaign Management: Analytix manages your PPC campaigns and Google Adwords to drive the strongest ROI.
- **Email Campaign Management:** We manage your entire email campaign and send regular detailed reports for each campaign's performance.
- Electronic Collateral: Gain professional graphic design services and present your customers with impressive electronic or print brochures, flyers, postcards, newsletters and other marketing collateral.
